The Occlusal Systems workflow

4 steps to your Digital Reports CHEW

Digital Reporting Services CHEW

OCCUSAL SYSTEMS Digital Reporting Services CHEW is aimed at dentists who want to incorporate the standardized chewing test into the services of their dental clinic. Decision processes as well as communication tasks and documentation requirements are optimally supported by Digital Reports CHEW. Digital Reporting Services performs tasks would otherwise put considerable effort into the dental practice and thus bind resources and capacities.

It is in fact quite a challenge to explain functional deficits such as a reduced chewing performance to patients. At the same time, it is this understanding that serves as basis for decision making for a necessary oral rehabilitation. Patients and their relatives appreciate the expert advice, which is supported by a comprehensible presentation.

The results of the standardized chewing test, featured as Digital Report CHEW, make treatment indications understandable, especially because Digital Reports consider individualized normal ranges.

Oral Rehabilitation simplified:
No investment, no training needs, moderate familiarization.

Start now with the Digital Reporting Services CHEW and benefit from the attractive conditions of the introductory offers. Take your chance with a unique selling point in your dental clinic and immediately expand your services at attractive prices.

Optimize occlusion

We share our knowledge

Digital reports are based on scientific data and facts. We share this knowledge with our clients in the form of summaries containing relevant scientific literature. In this way, questions from patients can be answered in a more targeted manner. Professional arguments are justified with even more insight.

OCCUSAL SYSTEMS offer a wide variety of training services that will help you to achieve the most out of Digital Reports in your daily work. True to our motto we focus on time saving, flexibility and low costs along with a high knowledge transfer.

Take advantage of our knowledge

At www.orehab-minds.com we provide our world of knowledge for our Digital Reporting Services users.
